

Find your revision Resources here:

W (shared) Drive / Technology / GCSE DT / Yr11 / GCSE Exam Practice

And

Year 11 Curriculum Teams / Design Technology / Revision Folder

Revision Activities you can complete in school or at home:

- Produce a **personal learning checklist** based on the curriculum content sheet in the front of your ring binder
- **Review past paper exam questions** that you have already completed (in folder)
- Use your **subject knowledge organiser** folder you have been given
- End of **topic testing sheets** that are in your curriculum folder – test yourself!
- Use **E-revision** to work through exam style questions for all exam sections
- **Identify topics** that you feel you need to revise more than ones you know

Activities you can do at home:

- Produce revision mind maps to check and map out your Technology subject knowledge
- Produce some revision cards and test yourself or get someone to test you.
- Watch relevant videos like 'Inside the factory' and 'How it's made' on YouTube when they demonstrate commercial manufacturing activities that you have covered in class
- Test your knowledge on key Technology vocab
- Look at advantages and disadvantages of topics

Remember! It is just as important to revise exam technique as well as content

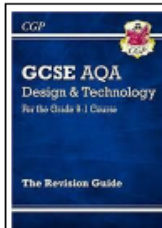

Exam Details?

Available marks = 125

Duration = 2hrs

Resources for exam

Blue or black pen / pencil / ruler / calculator / compass
