

HELE'S SCHOOL ANTI -BULLYING POLICY

Anti bullying Policy

Senior member of staff responsible for this policy: Kairn Stone

Date of review: February 2026

Next review: February 2027

This policy is based on DfE guidance “Preventing and Tackling Bullying” July 2017 and supporting documents. It also considers the DfE statutory guidance “Keeping Children Safe in Education” September 2022 and ‘Sexual violence and sexual harassment between children in schools and colleges’ guidance.

Rationale

Positive relationships between students, staff and parents are of the utmost importance to our learning community as we strive to create an atmosphere where every child matters.

All students and staff have the right to work and relax in dignity and safety. Our proactive approach allows for the education of students, their family and staff to hold healthy and positive relationships between one another.

Our anti-bullying work aims to change attitudes to bullying as well as to behaviour. Bullying will not be tolerated at Hele’s School. The school community has a duty to protect all its members and provide a safe and healthy environment for learning.

Aims & Objectives

We are committed to providing a caring, friendly and safe environment for all of our community, enabling wellbeing and a positive learning experience. Bullying of any kind is unacceptable at our school. If bullying does occur, all pupils should feel safe and encouraged to speak out against it and know that incidents will be dealt with promptly and effectively.

This policy looks to support staff, students and parents/carers in their understanding of Hele’s School ethos, and our approach to eradicating bullying from our community.

- All WeST Community Council members, teaching and non-teaching staff, pupils and parents should have an understanding of what bullying is.
- All WeST Community Council Members, teaching and non-teaching staff should know what the school policy is on bullying, and follow it when bullying is reported.
- All pupils and parents should know what the school policy is on bullying, and what they should do if bullying arises.
- As a school we take bullying seriously. Pupils and parents should be assured that they will be supported when bullying is reported.

HELE'S SCHOOL ANTI -BULLYING POLICY

- Bullying will not be tolerated.

In response to the Equality Act 2010 we have due regard to the need to:

- eliminate unlawful discrimination, harassment, victimisation and any other conduct prohibited by the act
- advance equality of opportunity between people who share a protected characteristic and people who do not share it
- foster good relations between people who share a protected characteristic and people who do not share it.

A Clear Definition of Bullying

Throughout school life friendship groups change. It is important that issues arising from such changes receive acknowledgment and emotional validation but are not confused with bullying. At Hele's School we believe that friendship issues and bullying are defined as;

- Isolated and varied incidents lasting for short periods of time which occur infrequently throughout the year. (Friendship issues)
- Bullying is behaviour by an individual or group, repeated over time, that intentionally hurts another individual or group either physically or emotionally. We recognise that children can abuse other children (child on child abuse). Bullying can take many forms (for instance, cyber-bullying via text messages or the internet), and is often motivated by prejudice against particular groups, for example on grounds of race, religion, gender, sexual orientation, or because a child is adopted or has caring responsibilities. It might be motivated by actual differences between children, or perceived differences. Staff and pupils are educated to promote respect for those who share the protected characteristics.
- Many experts say that bullying involves an imbalance of power between the perpetrator and the victim. This could involve perpetrators of bullying having control over the relationship which makes it difficult for those they bully to defend themselves. The imbalance of power can manifest itself in several ways. It may be physical, psychological (knowing what upsets someone), derive from an intellectual imbalance, or by having access to the support of a group, or the capacity to socially isolate. It can result in the intimidation of a person or persons through the threat of violence or by isolating them either physically or online.
- It is important to acknowledge that bullying can happen within, or across, year groups including Post 16 cohorts.

All members of our community have a right to;

- Feel safe, secure and treated with respect in the school environment.

HELE'S SCHOOL ANTI -BULLYING POLICY

- The quality of evaluation of what each child achieves, including marking and feedback
- Classroom layout and seating plans
- Information sent to them by pastoral staff which may impact upon classroom dynamics

In addition, we aim to use the following strategies when appropriate:

- involve parents to ensure that they are clear that the school does not tolerate bullying and are aware of the procedures to follow if they believe that their child is being bullied. Parents feel confident that the school will take any complaint about bullying seriously and resolve the issue in a way that protects the child, and they reinforce the value of good behaviour at home. Anti-bullying literature is available in our Induction pack and on the school website.
- involve pupils. All pupils understand the school's approach and are clear about the part they can play to prevent bullying, including when they find themselves as bystanders
- regularly evaluate and update our approach to take account of developments in technology, for instance updating 'acceptable use' policies for computers
- implement disciplinary sanctions. The consequences of bullying reflect the seriousness of the incident so that others see that bullying is unacceptable
- openly discuss differences between people that could motivate bullying, such as religion, ethnicity, disability, gender or sexuality. Also, children with different family situations, such as looked after children or those with caring responsibilities. We teach children that using any prejudice-based language is unacceptable
- use specific organisations or resources for help with problems. We draw on the experience and expertise of anti-bullying organisations with a proven track record and/or specialised expertise in dealing with certain forms of bullying
- provide effective staff training. Anti-bullying policies are most effective when all school staff understand the principles and purpose of the school's policy, its legal responsibilities regarding bullying, how to resolve problems, and where to seek support.
- work with the wider community such as the police and children's services where bullying is particularly serious or persistent and where a criminal offence may have been committed. We also work with other agencies and the wider community to tackle bullying that is happening outside school
- make it easy for pupils to report bullying so that they are assured that they will be listened to and incidents acted on. Pupils should feel that they can report bullying which may have occurred outside school including cyber-bullying
- create an inclusive environment. We aim to create a safe environment where pupils can openly discuss the cause of their bullying, without fear of further bullying or discrimination
- Invite our Place2Be counsellor to support those who have experienced, or perpetrated bullying, as appropriate.
