I decided to try and replica some of Jim Dine's work. I really liked the way Jim Dine in the original used two pieces of paper to draw this, so I decided to do that in my work and use two pages of my sketch book.

I really liked the way Jim Dine in the original picture draw the flowers, as some were well-worked into compared to others. Also the way he has drawn lots of different types of flowers all scattered all over the paper.

In my drawing, I have used pencil because I think it gives a more detailed look to the picture.

I really liked the way Lucian
Freud created this picture, the
way he
hair, and
he drew
position.
to create

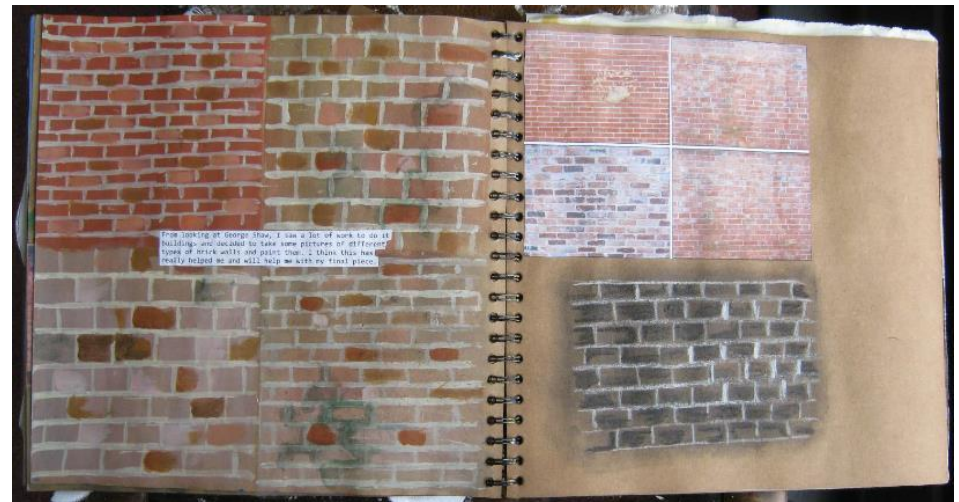

drew his
the way
him in this
I tried
it.
